How to plan your trip
To successfully use GTA’s extensive network or transportation services, you merely need to know:
• Where you are and where you are going.
• What time you need to be there.
  1. First, find the route that serves your present location and your destination.
  2. Next, look for your destination on the schedule and read down the list of arrival times until you find your preferred time.
  3. Finally, trace the times backwards to your current location. This is the time you need to be at the bus stop to board your bus.

How to read the maps and schedules
The bus stops here at the times listed below the symbol in the schedule. The numbers on the map represent scheduled times; stops other are served between the timepoints. The bus travels here sometimes. See schedule for stops that travel this route variation.

The connection point shows where routes intersect and transfers to other routes may be available.

The timetable shows the time that the bus is scheduled to depart or arrive. Light times are A.M., bold times are P.M. Times are approximate and depend on traffic and weather conditions. Arrive at the bus stop 4-5 minutes early.
Memorial Day, July 4th and Labor Day.
