

"Love Alone Heals"

Editor of the Daily News:

If this country is to remain a democracy we must have the right to choose our President, Governors, etc.

A club or lodge must have the right to choose its members.

A store owner must have the right to choose his customers.

Our stores have made their choice. Neither force nor public opinion has a right to step in and demand otherwise.

Right demonstration of any kind must unfold through understanding and love; for love alone heals.

You would not try to force open a beautiful rose bud.
