

"Equal Rights"

Editor of the Daily News:

I am writing in regard to what the ministerial organization had to say in the Daily News, March 2, about the race issue that is now before us. I quote, "segregation is a moral and spiritual wrong."

I feel that anyone who is a real spiritual leader should know that integration is morally wrong and certainly spiritually wrong.

God made different races, different colors, etc. It was and still is His plan to do so. Integration can lead to one thing, intermarriage. And the consequence?

God made different species of birds, animals and so forth. Even these have the instinct or wisdom to know it would be wrong and against nature itself to integrate.

God intended that the different races should have equal rights, but I feel he intended just as strongly that the races should be segregated as well.
