

'HIT-RUN' TACTICS USED BY NEGROES

MONROE, March 8 (UPI)—Negroes using what their leader called "hit-and-run" tactics attempted to stage protests today against segregated eating facilities at four stores which closed lunch counters as soon as demonstrators appeared.

Clusters of white spectators gathered on sidewalks in downtown Monroe, watching the Negroes move from one store to another in their demonstrations. The Negroes remained in each store only a short time, usually until the management closed lunch counters.
