

No. 1 Citizens

Editor of the Daily News:

I have read the letter, "Self-Righteous Approach," in the Apr. 26 paper. The author was mistaken about a few things. One, I would like to remind him, God was the Author of segregation. In the book of Mark, chapter seven, verses 27-28, Christ referred to the Greek woman as a dog. He also preached Jewish supremacy. The Jewish race is called "God's chosen people."

Mr. Shelton somewhere came up with the idea that segregation is a form of hatred. Did he ever think of it as a form of respect? Human beings are the only things on earth that will forcibly mix two different species.

The whites who are backing the N. A. A. C. P. are working for the almighty dollar. They think of integration as something that is for other people but will have no effect on them personally.

The Negro organization shows no respect for the differences in races, outlook or anything at all, not even the race that it is designed to "advance." If they do get integration pushed down the throats of the white people, they will find they have changed conditions for the Negroes, but I'm doubtful of the "advancement" of the situation.

They claim they want to be treated as "No. 1 Citizens." But they insist on being bribed before they can try to actually be "No. 1 Citizens." That's like having to pay your employes in advance, with no guarantee or assurance of any kind that they will do the job; and they do not have to return their pay, if they decide not to do the job. Does it seem fair to you? It doesn't to me.
