**City of Greensboro Code of Ordinances Chapter 6-113.:**

Any person may be permitted to perform electrical work upon their own property except property intended for rent, sale or gift provided he first makes application for and obtains a property owner's electrical permit from the electrical inspector for the work contemplated. The electrical inspector shall then issue a permit to the applicant to perform the work for which application was made. Such permit shall extend to the applicant only and shall not authorize the applicant to employ the services of any other person to assist him unless such other person is duly licensed. The permit granted the applicant shall automatically expire upon completion of the work. All work done under permit shall be subject to regular electrical inspection requirements and fees and shall satisfy all requirements applicable to such work.

**North Carolina General Statutes & NC Administration Code: § 160A-418. Time limitations on validity of**

**permits:** A permit issued pursuant to G.S. 160A-417 shall expire by limitation six months, or any lesser time fixed by ordinance of the city council, after the date of issuance if the work authorized by the permit has not been commenced. If after commencement the work is discontinued for a period of 12 months, the permit therefore shall immediately expire. No work authorized by any permit that has expired shall thereafter be performed until a new permit has been secured. (1969, c. 1065, s. 1; 1971, c. 698, s. 1.)

In compliance with the above city ordinance Section 6-113, I certify that I do not intend to rent, sell, or gift the aforementioned property, for a minimum of one year. All pre-wired equipment shall be listed per current NEC by an approved third party agency year. I understand that I am to perform the electrical work myself and shall not employ the services of any other person unless he/she is a licensed electrical contractor. In addition, I understand that in compliance with NC General Statute 160A-418 that if electrical work does not begin within 6 months of issuance of permit or work is discontinued for a period of 12 months after beginning, my electrical permit shall expire and before work commences, I must obtain another electrical permit. Furthermore, I certify all the above provided information is to the best of my knowledge, true and correct.
