

“What to Do in Case” Series

Greensboro Police Department

Your home has been broken into:

- Don't go inside. If you are already inside, exit your house immediately and call 9-1-1.
- Try not to touch anything. It may be evidence.
- Once your house has been cleared by the police, accompany them and go room to room mentioning what is missing, disturbed or broken. Provide police photos, receipts and/or serial numbers of the missing items.
- Allow a Crime Scene Investigator to enter the house to photograph the scene, dust for fingerprints and collect anything of evidence.
