Landscaping & Tree Conservation Requirements

Landscaping and Tree Conservation requirements will only apply to future development or redevelopment on the site.

Landscaping:

Street Yards: Street planting yards must be installed abutting public street rights-of-way. The required street planting yard must have a minimum width of 10 feet (as measured from the outside edge of the right-of-way or the back of the sidewalk, whichever is further from the street centerline) and include at least 2 canopy trees and 17 shrubs per 100 linear feet of required street planting yard, not including allowed driveways.

Buffer Yards:

Adjacent to single-family residential: Type B buffer yard, with an average width of 25', a minimum width of 20', and a planting rate of 3 canopy trees, 5 understory trees, and 25 shrubs per 100 l.f.

Adjacent to parks, vacant property and other retail or commercial uses: Vehicular Use Area buffer yard (see below) between any parking lot or drive aisle and the adjacent property line.

Parking Lots:

When a parking lot or other vehicular use area abuts a vacant site or a site with the same land use classification as the subject site, a planting yard with a minimum width of 5 feet must be provided between the parking lot/vehicular use area and the abutting (interior) property line. This required planting area must be landscaped with at least 2 understory trees and 18 evergreen shrubs per 100 linear feet.

Trees for required parking spaces: 1 canopy tree per 12 spaces, in islands or medians within the parking lot.

Tree Conservation:

For .73 acres, 1% of lot size in critical root zone to be dedicated for Tree Conservation for redevelopment. 1% of disturbed area to be dedicated for expansions. If existing trees on the lot are less than the required critical root zone, then all trees on the lot are required to be included in the critical root zone to be dedicated.

Transportation

Street Classification: W Florida Street – Major Thoroughfare.
Coliseum Boulevard – Major Thoroughfare.

Site Access: All access(s) must be designed and constructed to the City of Greensboro standards.

Traffic Counts: W Florida Street AADT = 7,100 (NCDOT, 2018).
Coliseum Boulevard AADT= 10,000 (NCDOT, 2018).

Trip Generation: N/A.

- Sidewalks: Sidewalks are a requirement of the Development Ordinance. 5' sidewalk with a 5' grass strip is required along both sides of thoroughfares. 5' sidewalk with a 3' grass strip is required along one side (at a minimum, collectors may require sidewalk on both sides) of all other street types. Sidewalk does exist along this properties frontage.
- Transit in Vicinity: Yes. GTA Route 2 (Four Seasons) is adjacent to subject property, along W Florida Street.
- Traffic Impact Study: No TIS required per TIS Ordinance.
(TIS)
- Street Connectivity: N/A.
- Other: N/A.

IMPACT/POLICY ANALYSIS

Land Use Compatibility

The proposed **CD-C-M (Conditional District – Commercial – Medium)** zoning, as conditioned, would allow land uses that are compatible with the general character of the area.

Connections 2025 Comprehensive Plan Policies

The Generalized Future Land Use Map designates this location as **Low Residential (3-5 d.u./acre)**. The requested **CD-C-M (Conditional District – Commercial – Medium)** zoning district, as conditioned, is generally inconsistent with the **Low Residential (3-5 d.u./acre)** GFLUM designation, however, per City Council adopted policy, a GFLUM amendment is not required for re-zoning requests that are less than one acre, or that do not involve a significant physical change resulting in new or expanded structures..

Connections 2025 Written Policies

Land Use Goal 4.1 – Growth Strategy: Promote sound investment in Greensboro's urban areas, including Center City, commercial and industrial areas, and neighborhoods.

Policy 4A: Remove present impediments to infill and investment in urban areas.

Policy 4B: Target capital investments to leverage private investment in urban areas.

Policy 4C: Promote new patterns and intensities of use to increase economic competitiveness and enhance quality of life in urban areas.

Policy 4D: Identify potential opportunities and selectively target, plan and promote development/reuse initiatives.

Community Character, Goal 5.2 – Man-Made Environment: Preserve and enhance the character and visual quality of Greensboro's built environment, including historic resources, private developments, and public landscapes.

Policy 5E: Improve the aesthetic quality of publicly owned and maintained landscapes.

Policy 5F: Implement and improve design standards governing the appearance of development from public roadways.

Economic Development, Goal 7: Promote a healthy, diversified economy with a strong tax base and opportunities for employment, entrepreneurship and for-profit and non-profit

economic development for all segments of the community, including under-served areas such as East Greensboro.

Policy 7A: Target city investment and regulatory policies for economic development.

Policy 7C: Ensure that city land use policies and regulations allow for an adequate supply of land to accommodate economic development.

Transportation, Goal 8: Develop and maintain a safe, efficient, and environmentally sound transportation system that provides convenient choices for accessing destinations throughout Greensboro and the Triad, including a range of well-integrated transit, pedestrian, and bicycle linkages.

Policy 8A: Maintain a roadway network that safely and efficiently accommodates vehicular traffic while supporting other community objectives defined in the Comprehensive Plan.

Connections 2025 Map Policies

Low Residential (3-5 d.u./acre): This category includes the City's predominantly single-family neighborhoods as well as other compatible housing types that can be accommodated within this density range. Although there are some existing residential areas in the City developed on lots greater than 1/3 acre, future residential developments and "conventional" subdivisions should generally maintain a gross density of no less than three dwellings per acre, except where environmental constraints (e.g., the Watershed Critical Area) prevent such densities from being achieved. Compact developments that include clustered, small lots with substantial retained open space are encouraged.

CONFORMITY WITH OTHER PLANS

City Plans

Sustainability Action Plan

Element 1) Transportation and Land Use:

Policy 1) Encourage increased density, a mix of land uses and more integrated links between transportation and land use through changes to Greensboro's Comprehensive Plan, Development Ordinance and other related plans.

Element 2) Green Jobs and Buildings:

Policy 3) Develop a coordinated City program to provide technical support, energy audits and education and outreach to increase energy efficiency and conservation in commercial and residential buildings.

Policy 4) Use a combination of code changes, incentives, partnerships and education to promote green building in Greensboro.

Policy 6) Promote more efficient use of water through education, partnerships and pilot projects.

Element 3) Waste Reduction and Recycling:

Policy 7) Employ a combination of expanded recycling infrastructure, regulations and incentives to increase Greensboro's solid waste diversion and recycling rates.

Element 6) Education and Outreach:

Policy 11) Provide technical support, awards and recognition to individuals and organizations furthering Greensboro's energy and sustainability efforts.

STAFF ANALYSIS AND RECOMMENDATION

Community Outreach

Applicant is strongly encouraged to discuss this proposed rezoning and development with owners of surrounding properties and with representatives of the Piedmont Heights neighborhood.

Staff Analysis

The 0.73 acre subject property currently contains a vacant structure that appears to be originally constructed for an auto service use. Uses to the north are retail sales and vacant land, zoned C-L. East of the request is a car wash, zoned C-L. South of the request is a shopping center, zoned C-L. West of the request is a single-family dwelling, zoned R-5.

The Comprehensive Plan's Future Land Use Map currently designates this property as Low Residential. This category includes the City's predominantly single-family neighborhoods as well as other compatible housing types that can be accommodated within a density range of between 3 and 5 dwelling units per acre. Per City Council adopted policy, a GFLUM amendment is not required for rezoning requests that are less than one acre in size.

The rezoning request is consistent with the Comprehensive Plan's Reinvestment/Infill goal to promote sound investment in Greensboro's urban areas and the Economic Development goal to promote a healthy, diversified economy with a strong tax base and opportunities for employment, entrepreneurship and for-profit and non-profit economic development for all segments of the community.

The request is consistent with the intent and purpose of the zoning code, the Comprehensive Plan (Connections 2025) and is generally compatible with the existing development and trend in the surrounding area.

Staff Recommendation

Staff recommends **approval** of the requested **CD-C-M** (Conditional District Commercial Medium) zoning district.
